

Sachin P. Tekade

Sachin Tekade is best known for his minimal art works culled from white paper. He found his subject - 'Architectural Surfaces and Patterns' when he started experimenting with paper while making architectural models. His subjects vary from 'Evolution' to 'Futuristic forms' in architecture and 'Emotions in Space'. His faith in 'Infinite Singularity' and consistent contemplation over his workmanship in paper helps him hone a distinctive vision. Expression for Sachin is devoid of color. For him, 'White' - encompasses the spirit of purity & evolution.

He investigates the textural qualities of paper to reveal the inherent beauty of this medium. The artist believes that this minimalist exploration is also a way of 'Unburdening' for him. He has held three solo exhibitions: Seismic, 2012 (Mumbai), The Poetics of Space, 2014 (Mumbai) and Absence, 2015 (New Delhi). His works feature in several prominent art collections. He has exhibited at VIP Art Fair, USA, in London at START Art Fair, as well as at India Art Fair, New Delhi.

Sachin was born in Karodi Village of Akola District in Maharashtra. He was first introduced to 'Paper' as a medium while pursuing Art Teacher Diploma in year 1999. He holds a Bachelor of Visual Arts degree from Faculty of Fine Arts, Maharaja Sayajirao University in Baroda in 2006.

The artist lives and works in Pune.
